Become a Digital Banker

Digital Banking is the automation of traditional banking services. Digital banking enables a bank's customers to access banking products and services via an electronic/online platform. Digital banking means to digitize all of the banking operations and substitute the bank's physical presence with an everlasting online presence, eliminating a consumer's need to visit a branch. Advancing to a more technologically sophisticated way of doing things, it goes without saying that the benefits long outweigh the costs. Similarly, digital banking as a technological by-product aims to make life easier for the customers of a bank. Digital banking has the following benefits: Digital banking enables consumers to perform banking functions from the comfort of their homes, be it an elderly person who is tired of waiting in lines or a working-class professional who is caught up with work, or a regular person who does not want to visit the bank's branch to run a single errand. It also offers convenience. Elaborating on the convenience offered, digital banking lets

Become a Digital Banker

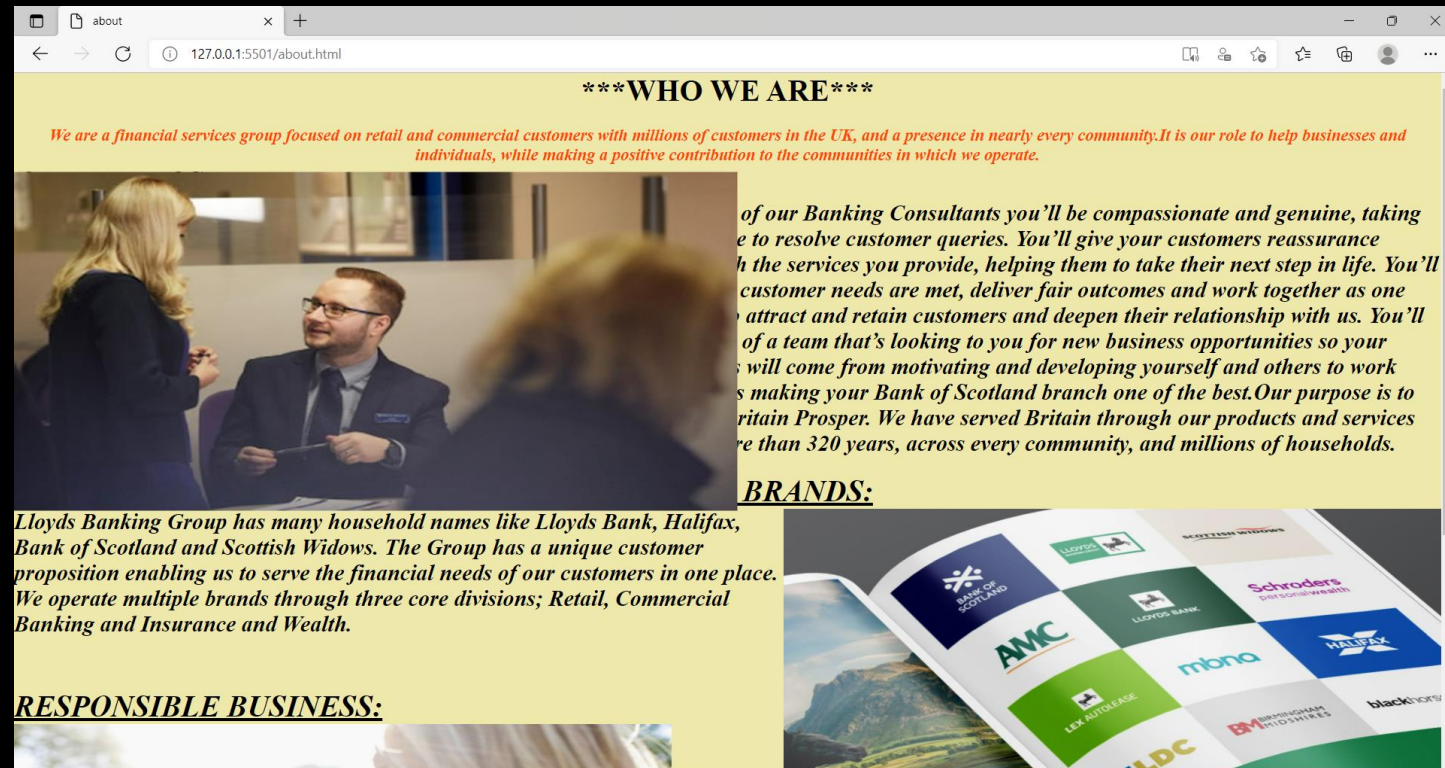

Digital Banking is the automation of traditional banking services. Digital banking enables a bank's customers to access banking products and services via an electronic/online platform. Digital banking means to digitize all of the banking operations and substitute the bank's physical presence with an everlasting online presence, eliminating a consumer's need to visit a branch. Advancing to a more technologically sophisticated way of doing things, it goes without saying that the benefits long outweigh the costs. Similarly, digital banking as a technological by-product aims to make life easier for the customers of a bank. Digital banking has the following benefits: Digital banking enables consumers to perform banking functions from the comfort of their homes, be it an elderly person who is tired of waiting in lines or a working-class professional who is caught up with work, or a regular person who does not want to visit the bank's branch to run a single errand. It also offers convenience. Elaborating on the convenience offered, digital banking lets a user carry out banking work around the clock, with 24*7 availability of access to banking functions. One of the biggest drawbacks of traditional banking was the overly placed importance on paper. Banking has become paperless with the development of digital banking as a service. A user can log into their account at any point in time to monitor records. Digital banking allows a user to set up automatic payments for regular utility bills such as electricity, gas, phone, and credit cards.

JS VALIDATION FOR EXAM FIELD AND GENDER:

- ❖ JS validation given to EXAM field. After clicking submit button If exam field is empty it will send alert message is shown “ENTER YOUR respective exam”.
- ❖ JS validation given to GENDER field. After clicking submit button If gender field is empty it will send alert message is shown “ENTER YOUR GENDER”.

The screenshot shows a web browser window with the address bar displaying "127.0.0.1:5501/student.html". A JavaScript alert box is open, displaying the message: "127.0.0.1:5501 says ***PLEASE SELECT RESPECTIVE EXAM NAME***". The alert box has an "OK" button. Below the alert, a yellow banner reads: "PLEASE FILL THE FORM PROPERLY AND LAST DATE OF SUBMISSION IS 10/01/2022". The registration form is visible, with fields for: 1. NAME OF THE APPLICANT (ROSYKASTHURI), 2. DOB (12-12-1999), 3. AGE (23), 4. GENDER (Female), 5. NATIONALITY (INDIAN), 6. CATEGORY (OBC), 7. CONTACT NUMBER (9443578456), 8. WORK EXPERIENCE IN MONTH (12), 9. STATE (PONDICHERRY), 10. CHOICE OF TEST CENTER (Pondicherry), 11. EXAM NAME (**select**), 12. EDUCATION DETAILS (GRADUATION: UG, DEGREE: B.TECH, BRANCH: CSE, AGGREGATION: 90, YEAR: 2020; HIGHER SECONDARY: NULL, COMPUTER: 88, 2016; SSLC: NULL, NULL, 87, 2014), 13. ADDRESS FOR COMMUNICATION (FIRST LINE: 12 north plaza street, SECOND LINE: pondicherry, PINCODE: 609602), 14. PROJECT NAME (hotel billing management), and 15. EMAIL ADDRESS (rosy123@gmail.com). The form has "Submit" and "Reset" buttons at the bottom.

The screenshot shows the same web browser window and registration form as above. However, the JavaScript alert box now displays the message: "127.0.0.1:5501 says ***PLEASE SELECT AN OPTION IN GENDER!***". The alert box has an "OK" button. The yellow banner and the registration form fields remain the same as in the previous screenshot.

JS VALIDATION ON SUBMIT:

- ❖ After filled the form correctly then while clicking submit button it will redirect to another page formsubmit.
- ❖ If form is filled incorrect then it will validate the invalid field and after click submit it will redirect to another page

DESCRIPTION ABOUT FRONT END TECHNOLOGIES USED IN THIS PROJECT:

- ❖ This project is done using front-end technologies such as HTML, CSS and JAVASCRIPT VALIDATION.

HTML

The language that defines the structure of the web.

CSS

Creates and defines a page aesthetic, including layout, presentation, and formatting.

JAVASCRIPT

Allows programmers to govern how different page elements interact.

The image features a solid black background. At the top, there is a decorative border composed of several overlapping, wavy bands of color. From left to right, these bands transition through shades of yellow, orange, red, and finally into a bright cyan or light blue on the far right. The waves create a sense of movement and depth.

THANK YOU.....
